

## **Sound Masking Scores a Touchdown with the Minnesota Vikings**

*Cambridge Sound Management – March 2014 Newsletter*

In 2016 the Minnesota Vikings will enjoy a state-of-the-art stadium, and their ticket sales team will enjoy a state-of-the-art office complete with QtPro™ sound masking from Cambridge Sound Management.

With QtPro sound masking, Viking employees will be able to focus on selling out games, not dealing with office distractions. The sound masking deployment will cover two floors of open office, private office and conference rooms, all with 10' acoustical ceiling tiles. Sure, we'll always be Patriot fans at heart, but we're pleased to help the Vikings sales team score a great work environment.
